

We supply life science and diagnostic reagents for research purposes

we Connect you

Over the past 17 years, we have worked on a network that connects every type of laboratory in the Benelux with reagent manufacturers from all over the world. Our comprehensive portfolio contains reagents for drug discovery and large scale production, as well as specialized niche products. Besides the products in our portfolio, we are able to arrange custom production of products that suit your needs. Our offices are located in Huissen, the Netherlands, and Brussels, Belgium.

Why you choose us?

- ✔ *Order all your lifescience and diagnostic reagents at just one address*
- ✔ *Preferred supplier in the academic and industrial market*
- ✔ *Bio-Connect supports you in Dutch, English and French*
- ✔ *ISO 9001:2015 and ISO 14001:2015 certified*
- ✔ *Quickly find the right product for your research in our user-friendly webshop*

Lets work together!

- ✔ *Over 6,5 million products from more than 130 global contracted suppliers*
- ✔ *In-house advanced technical knowledge and practical expertise*
- ✔ *If you cannot disclose your needs without an NDA, we are very willing to set one up*
- ✔ *More time for your own R&D activities*
- ✔ *Easily request (bulk) prices when necessary*

Find the right supplier quickly and easily

[bio-connect.nl/industries/biotech-pharma-cro](https://www.bio-connect.nl/industries/biotech-pharma-cro)

- > Scroll down to suppliers
- > Then select the area of research for which you need reagents.
- > A list of our best suppliers for your research area will appear.

	Drug discovery	Cell-based Assays	Vaccine development	Production of i.e. drugs, proteins	(Diagnostic) Kit production	CRO-services	Production of Therapeutics	Portfolio and USP's
AdipoGen Life Sciences	x		x			x		Inflammation & Immune Responses: antibodies, ELISA, recombinant proteins, small molecules, natural products, rare antibiotics
Bio X Cell	x	x	x	x	x		x	<i>In vivo</i> grade monoclonal antibodies: preclinical animal studies, bulk quantities
BPS Bioscience	x					x		Biomedical research: cell lines, proteins & enzymes, substrates, immunotherapy, epigenetics, cell signaling, CRISPR, CAR-T
Cygnus Technologies	x		x		x	x		Bioprocess impurities: protein A ELISA and HCP ELISA (i.e. CHO and HEK293), custom kits and coverage analysis services
FiberCell Systems	x	x	x	x			x	Supplier of hollow fiber bioreactors to the biomedical research community
Merckodia	x				x	x		Manufacturer of cardiometabolic immunoassays to provide tailored bioanalysis solutions for pharma and biotech companies.
PromoCell	x			x	x			Cell culture: primary cells with specialized culture media (custom), cell assays, EXCiPACT™ GMP certified
Quidel						x		Immune system monitoring, complement activation, bone health
SVAR	x	x	x	x	x	x		Gene therapy-, complement system-, cell-based solutions, with the iLite Technology
ZeptoMetrix	x				x	x		Microbiology products for assay development and quality control. NSI TSS Certified Reference Materials (CRMs)
Sino Biological	x				x		x	Recombinant technology: proteins, antibodies, custom production
Creative Biolabs	x	x	x			x	x	Providing custom biotechnology and pharmaceutical services that cover the full scope of biotechnology needs of drug discovery
Enzo Life Sciences	x		x		x			Portfolio of 20.000 high-quality products including antibodies, genomic probes, assays, biochemicals, and proteins
JpT Peptides	x		x					Peptides: PepMix to check T-cell response, SARS-CoV-2 peptides, special peptide synthesis and customized medchem
Mabtech	x		x	x		x	x	Spot technology for studying immune response in diseases
Prolytix	x		x	x	x	x		Large molecule CRO: protein chemistry expertise, integrated large molecule analytical services and customized products
Solis BioDyne	x	x	x	x	x			PCR reagents: enzyme is stable at RT and tolerates inhibitors, FAST range allows 30 min (q)PCRs
IBL Japan	x		x		x		x	ELISA and ready-to-use assays for specific markers, hormones, antibodies, antigens
MedChem Express						x		Small molecules: research (bio)chemicals, biologically active, synthesis, FDA approved bioactive screening libraries (HTS/HCS)

More suppliers offering products for these research areas can be found at www.bio-connect.nl/industries/biotech-pharma-cro/

Interested in GMP or bulk options? Please fill out the bulk quotation request form on our webshop. Our team will connect with you within 24 hours.
