

# All your cell culture solutions

## From trusted suppliers with local support

✦ Expert advice on product selection ✦ Application guidance ✦ Troubleshooting support

## we Connect you to all your cell culture needs

Bio-Connect offers convenient access to a variety of cell culture products, including cells, media, 3D matrices, and specialised culture systems.

On the back of this brochure, you will find an overview of our cell culture suppliers, the product types they offer, and the applications they support. The table covers the following categories:

- ✦ Cell models (primary, stem and iPSCs, immortal and cancer cell lines)
- ✦ Culture Media and Supplements
- ✦ Growth factors and Cytokines
- ✦ 3D matrices and coatings

Use the table to quickly identify the right suppliers and products for your research.

### Need help finding the right products for your project?
