

Growing organoids is complicated enough, finding the right products shouldn't be

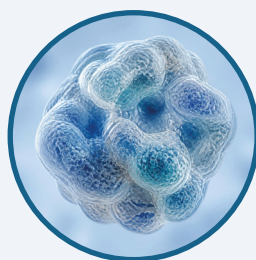

From starting cells and matrices to processing, imaging and functional analysis, Bio-Connect helps you find the products, models and expertise you need at every stage of your organoid workflow.

Starting Cells

Culture & Matrices

Organoid Development

Processing & Engineering

Analysis & Screening

Expert support for the full organoid workflow

Our in-house technical support team and our account managers are here to support your research.

Trusted suppliers for your organoid workflow

Bio-Connect's Organoids Portfolio

Supplier 															Product Highlights 
	Stem Cells	Stem Cell Media	Stem Cell Reagents	Hydrogels & 3D Matrices	Scaffolds	3D Cultureware	Organoid Media	Growth Factors & Cytokines	Organoid & Cell Models	Organoid Processing	Engineering & Gene Editing	Imaging & Analysis Tools	Functional Assays	Custom Services	
AbMole			●										●		Stem Cell & Wnt Modulators
Adipogen LS			●					●							Cytokines & Small-Molecule Modulators
Ancell Corporation								●				●			Cytokines & Marker Antibodies
AntBio							●			●			●	●	Organoid Media & Differentiation/Viability Assay Kits
abm	●	●	●	●		●	●		●	●	●			●	Ready-to-Use Brain Organoids & 3DCelMatrix™
Axol Biosciences	●								●		●			●	Neuro, Cardio, Dermato & Ophthalamo iPSC-Derived Models
BioLamina				●											BioSilk™ Animal-Origin-Free 3D Hydrogel
Bio X Cell												●	●	●	InVivoMAb™ Functional Antibodies
BrainXell	●								●					●	Human iPSC-derived Neural Cells & Models
BosterBio												●		●	Marker Antibodies & ELISA Kits
BPS Biosciences	●								●				●	●	StemBright™ Reporter iPSCs & iPSC-Derived Models
Cell GS				●				●						●	PeptiGel® Hydrogels, PODS® Sustained-Release GF
Cosmo Bio		●	●									●			Stem Cell Reagents, Marker Antibodies & ELISA Kits
Cyagen OriCell		●	●							●	●			●	Oricell™ iPSC Media & Custom Cell Models
EastMabBio			●	●				●							Organoid Culture Growth Factors & Cytokines
GeneTex												●		●	Marker Antibodies, ELISA Kits & Custom Antibody Services
INDIGO Biosciences													●		Cell-Based Luciferase Reporter Assays
FUJIFILM Wako		●	●	●											StemSure® Y-27632 & iMatrix-511
MedChemExpress		●	●	●			●	●		●			●		Organoid Recovery Solution & Organoid Vitality Assay Kit
Metatissue				●	●										hPLMA Hydrogel & hPLMA Sponge
PromoCell	●	●	●							●					3D Tumorsphere Medium XF & Primary Cancer Cells
Sino Biological			●					●				●			Organoid Culture Cytokines & Marker Antibodies
